## About Us

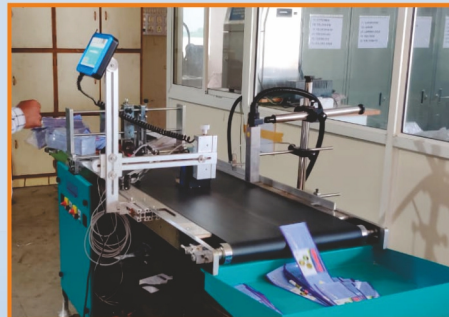

Volkschem Crop Science Pvt. Ltd. has begun this journey back in 2011, We are located in the India's business oriented and one of the fastest growing city i.e. Ahmedabad. Contemplated in 2011 with the vision of mounting in agro chemicals, Mr. Jagdish Khodifad established the agro chemical remedy at one junction. today it has become one of the leading Manufacturer of Pesticides, Insecticides, Herbicides, Fungicides, Plant Growth Promoter, Plant growth Regulator, Flowering Stimulant, Bio Fertilizer, Mix Micronutrient, Water Soluble Fertilizer in Ahmedabad, Gujarat. We laid the foundation stone of the company to come up with the best agricultural products and solutions that can benefit the farmers and end-users. With our focus on attaining customer satisfaction with our quality products, we have separate facilities for processing, packaging, storage, warehousing and distribution of our products.

With a well-loaded infrastructure and team of highly professional people, we were, are and will always surpass the expectations of our clients. It's our zest that gained us the recognition in the national as well as international market.

## Vision

Volkschem Crop Science Pvt.Ltd. have specialization in the agro chemical manufacturing. For the future vision,taking a step ahead to superiority in the quality work and also to build strong presence in our manufacturing sector and the supplying sectors. Dealing with the domestic and the international partners Our goal will be to give better results of the work with effective services in the future.

## Production Department

# R & D

**(Quality Control & Quality Assurance Department)**

Based in Ahmedabad, Volkschem launched R&D facility handles the bulk of in-house testing and R&D needs of its various business functions.

With state-of-the-art equipment and a highly experienced team of scientist, technicians and agronomists, the facility is a valuable step towards Volkschem goal of becoming an innovation leader and fully-integrated provider of crop protection.

**GC Testing**

**UV Testing**

**HPLC Testing**

# Infrastructure

## 1. Manufacturing Unit

Volkschem Crop Science Pvt Ltd, Ahmedabad is a manufacturing facility that specializes in the manufacturing and packaging of agrochemical products. Strategically located in the chemical manufacturing hub of Ahmedabad,

The facility caters to different product ranges including insecticides, herbicides and fungicides, Plant Growth Promoter, Flowering Stimulant, Bio Fertilizer spread over 4 separate wings, which are carefully designed to prevent cross-contamination. VCSPL is equipped to manufacture a variety of formulations, including EC, SP, SG, SC, WP, GR, DP, WG, CG, SL, CS, ZC, SL, FS, WDG, WS, L.

please visit [www.volkschem.com](http://www.volkschem.com) for further information. As a licensed manufacturer with over 10 years of experience, VCSPL has become synonymous with the highest standards of quality and professionalism. Modern facilities, relatively large production capacities, as well as highly customizable formulation and packaging options, make it the contract manufacturer of choice for a number of national and multinational companies.

## 2. Quality Department

Quality is the answer of our hard work. Volkschem Crop Science Pvt.Ltd. is attentive to produce best agro chemicals as per the international quality norms, contemplating to deliver the highest quality product which makes clients satisfactions by using the best remedy for the crops solutions.

All the products are manufactured under the supervision of experienced professionals. Our team of quality controllers that conduct quality based checks at different stages of production. Our product is tested under the parameter of the purity, effectiveness, skin friendly, long shelf life. Deliberate to give the best quality, we are improving the high quality of agro science dayby day.

Label	Name	Level of Toxicity	Oral Lethal Dose (mg/kg)	Listed Chemicals
	Red Label	Extremely Toxic	1-50	Monocrotophos, Zinc phosphide, ethyl mercury acetate, and other.
	Yellow Label	Highly Toxic	51-500	Endosulfan, Carbaryl, Quinalphos, and other.
	Blue Label	Moderately Toxic	501-5000	Malathion, thiram, glyphosate, and other.
	Green Label	Slightly Toxic	>5000	Mancozeb, oxyfluorfen, mosquito repellent oil and liquids, and most other household insecticides.

### Extremely toxic label contains the following.

- A) Symbol of skull and cross bones and the word POISON to be printed in red.
- B) Keep out of reach of children.
- C) If swallowed or if symptoms of poisoning occur call physician immediately.

### Highly toxic label Contains the Following

- A) The word POISON to be printed in yellow.
- B) Keep out of reach of children.

### Moderately toxic label contains the following.

- A) Word DANGER on the Label.
- B) Keep out of reach of children.

### Slightly toxic label contains the following.

- A) Word CAUTION on the Label.
